

Volburg REACH Statement

Volburg monitors EU REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). The only provisions applicable to Volburg's products are the REACH requirements regarding articles, which apply to electronics products. Specifically, REACH requires us:

- To inform recipients if an article placed on the European market contains a Substance of Very High Concern (SVHC) over 0.1% by weight. SVHCs are identified on the European Chemical Agency (ECHA) website.
- To notify ECHA if an article contains an SVHC over 0.1% by weight and the total amount of the SVHC present in all articles produced or imported to the European market exceeds one metric ton per year.
- To cease shipment of articles containing REACH Annex XIV Substances Subject to Authorization unless the required authorization has been obtained; and,
- To cease shipment of articles containing REACH Annex XVII substances when restriction applies.

Having evaluated supplier certifications and material composition declarations, as well as Volburg specifications, Volburg has, to the best of its knowledge and belief, determined that:

- Volburg products do not contain applicable substances restricted in articles by REACH Annex XVII.
- Volburg products do not contain substances for authorization under REACH Annex XIV.
- Volburg products do not contain any Candidate List SVHC above 0.1% by weight per article

If substances listed in the REACH Candidate List of Substances of Very High Concern (SVHC) above 0.1% (w/w) are identified in components used in the customer product, Volburg will inform the customer without undue delay based on information received from suppliers.

Volburg Appendix 1: REACH References

EU REACH: Candidate List of Substances of Very High Concern (SVHC)

- Last updated 04 February 2026.
- The current Candidate List includes 253 line items.
